## Overview

---

A number of challenges exist for LGBTQ+ students on college campuses, particularly in a time when federal interpretations of Title IX are shifting. Using national data from peer-reviewed journals and organizations like GLSEN and the National Center for Transgender Equality, this webinar will discuss some of the key challenges currently facing LGBTQ+ students.

Afterwards, a discussion of practical strategies and tips to address these challenges will take place. In this discussion, attendees will learn about how to increase curricular inclusion for LGBTQ+ topics, how to foster a more inclusive and affirming classroom environment, and how to promote success among their LGBTQ+ students.

Finally, this webinar will also provide practical teaching advice from the presenter, who has taught college courses in the social sciences, arts/humanities, and other interdisciplinary fields of study at both a large research university and a smaller public university.
